Web Announcement 1735

Modernization: Attention All Providers: Include Claims Adjustment Reason Codes on Claims

The Division of Health Care Financing and Policy (DHCFP) will implement a new, modernized Medicaid Management Information System (MMIS) on February 1, 2019. As you prepare for the new MMIS, please be advised that when you submit **Third Party Liability (TPL) and Medicare (Crossover) claims** through the Provider Web Portal and Electronic Data Interchange (EDI), Claims Adjustment Reason Codes (CARCs) and amounts will need to be included in your claim submission. CARCs communicate a reason for a payment adjustment that describes why a claim or service was paid differently than it was billed.

The Electronic Verification System (EVS) User Manual Chapter 3 Claims will be updated on the Nevada Medicaid website in January 2019 with instructions for billing with CARCs.
