Revalidation Due Date and License Number/Effective Dates will Populate in Provider Web Portal

Effective August 3, 2020, the revalidation due date and the license number and effective dates for the provider that the delegate is signed in under will populate under the Provider section in the Electronic Verification System (EVS) and under Provider Locations in the Online Provider Enrollment tool. The data will be listed under Provider on the My Home page when the provider/delegate logs in to EVS.

To assist providers/delegates with noticing when their revalidation due date is nearing, in EVS the Revalidation Date will display a color-coded alert when the revalidation date is within 180 days.

- Yellow Alert – Revalidation Date is within 180 – 91 days

- Red Alert – Revalidation Date is with 90 – 1 days

Providers who have multiple service locations may click on the Revalidation-Update Provider link to view the Locations webpage, which will list the revalidation due dates and license numbers/effective dates for each service location.

For additional details and instructions, review the EVS User Manual Chapter 1 (Getting Started) and the Online Provider Enrollment User Manual Chapter 3 (Revalidation and Updates).
