## **Electronically Filed Claims Being Reprocessed**

As you know, when paper claims have denied due to edit modifications, First Health Services has been able to resubmit these claims and reprocess them through for adjudication. We have recently expanded these capabilities to claims filed electronically.

We will be reprocessing older electronically filed claims that denied inappropriately due to various edits. No action is required on your part. Your Remittance Advices (RA) will report the resubmitted denied claims that were filed electronically.
