

# Web Announcement 25

## **Claims Denied Due to Edit Codes 0201 and 0202**

Medicaid Providers who submit claims on a CMS-1500 form and who have been receiving pends due to Edit Code 0201 (Duplicate Payment Request – different provider, same dates of service) and Edit Code 0202 (Duplicate of History File Record – different provider, same date of service) are requested to take no action at this time.

First Health Services is resubmitting claims with Edit Codes 0201 and 0202 with updated criteria that will cause these and future duplicate claims submitted to deny.
