Nevada Medicaid Web Announcement 3015

Provider Type 91 (Pharmacist) May Link to Provider Groups Starting February 22, 2023

Effective February 22, 2023, the [Online Provider Enrollment \(OPE\) tool](#) has been updated to allow provider type 91 (Pharmacist) to link to groups during the enrollment process. The update will allow individual pharmacists to link to a provider group and have the provider group bill for pharmacist-performed services.

Instructions for linking to a group are available under "Group Association" in [Chapter 2 of the OPE User Manual](#). Provider groups that individual providers may link to are listed in the [Provider Enrollment Information Booklet](#).
