Nevada Medicaid Web Announcement 3142

Attention Provider Types 20 (Physician, M.D., Osteopath, D.O.) and 24 (Advanced Practice Registered Nurses):

Claims for Procedure Codes G0433 and G0443 Reprocessed

Claims for procedure codes G0433 (Infectious agent antibody detection by enzyme-linked immunosorbent assay (ELISA) technique, HIV-1 and/or HIV-2) and G0443 (Screening for alcohol misuse and brief behavioral counseling) that processed on or after February 1, 2019, through May 29, 2023, and denied in error with error code 4208 (CLIA license number invalid) have been reprocessed automatically.

Results of the reprocessed claims appear on remittance advices dated August 11, 2023. When claims are reprocessed, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and other claim denials may be received. Providers have the right to appeal denied claims, including those denied upon reprocessing. Please refer to [Medicaid Services Manual Chapter 100](#) and the [Billing Manual](#) for information concerning the claim appeal process and time frames.

Reminder: Claims for procedure code G0433 must have modifier QW (Clinical Laboratory Improvement Amendment (CLIA) waived test). Claims without the modifier will deny correctly with error code 4208.
