Nevada Medicaid Web Announcement 3313

URGENT NOTIFICATION Regarding Postponement of March 21, 2024, Personal Care Services Provider Listening Session

Update to [Web Announcement 3299](#): Nevada Medicaid is postponing the March 21, 2024, Personal Care Services (PCS) Provider Listening Session as it awaits new updates from the Centers for Medicare & Medicaid Services (CMS) and Change HealthCare later this week. Nevada Medicaid continues to send updates to affected providers through its web announcement and website notification system along with advanced payments.

As Nevada Medicaid awaits a larger, national technology solution for Change HealthCare, Nevada Medicaid is working with its vendors and providers to address and mitigate the payment challenges for providers that are resulting from the Change HealthCare/Connect Center outage.
