Announcement 551

Duplicate Claims for Physician-Administered Drugs

Attention provider types 14, 17, 20, 21, 22, 24, 25, 27, 36, 37, 45, 72, 76: From December 4, 2011, to the present, providers who submitted duplicate claims for the same service for physician-administered drugs may have been reimbursed in error by Nevada Medicaid for the duplicate claims. Once the error has been corrected and the duplicate claims identified, the duplicate physician-administered drug claims will be voided automatically and the overpayments will be deducted from the provider's Medicaid payments. It is estimated that the recoupments will begin January of 2013.

Providers who have refunded the overpayments may disregard this announcement.
